Street Watch Patrols (awaiting information)

Reports from patrols & other media:

Cllr Smith attended a street watch patrol on the evening of 20 August.

Speed Watch (Information provided by M Crawford)

Sessions were conducted on 4 occasions across 3 different sites within Maulden in August, totalling 3.25 hours of roadside monitoring.

- A total of 20 vehicles were logged exceeding the 'reportable' speed limit attributed to that section of road.
- Included in that number were 5 commercial vehicles (25%) of assorted varieties & colours.
- 1 of the 20 vehicles had been logged for excessive speed on 2 previous occasions.
- Of the 20 vehicles logged, 6 (30%) were travelling at 40 mph or more in a 30 mph zone
- Highest individual speed recorded was 43 mph on Clophill Road (Green End), westbound at 09:15 on a Thursday morning.

Neighbourhood Watch

Cllrs Browning and Smith met with R Williams, the lead for Neighbourhood Watch in Maulden, to find out more about the scheme and how to encourage residents to set up their own Neighbourhood Watch areas to bring communities together and make Maulden an even safer place to live

Police Engagement Event with PCSOs Carne and Jorgensen

Cllrs Browning met with two PCs from the Community Police Team and CBC ASB Team at the recreation ground on the evening of 19 August in response to reports of anti-social behaviours in that area. We spoke with local residents about their experiences and gathered some useful information to help the police focus their resources.

CBC ASB Team assisted some residents on the easiest way to report events.

The police stressed the importance of reporting every single event so that they can build up a picture of what is happening. If more than one person witnesses, they all need to report it. The more reports the police get, the bigger the chance of them addressing it. If anyone wants to report anonymously, they can do so via Crime Stoppers. No-one will be able to trace their call back to them, not even the police.
